PROFILE SUMMARY

Results-driven Computer Science graduate with a strong foundation in full-stack development, UX/UI design, and AI-powered systems. Experienced in building mobile and web applications using React Native, Node.js, Firebase, and Python-based AI models. Proven ability to deliver end-to-end solutions from system design and prototyping to deployment through academic projects and hands-on industry experience. Actively seeking junior or full-time opportunities in software development, UI/UX design, or related technology roles.

EDUCATION

Bachelor's Degree of Computer Science (Honours) *Nov 2023 - April 2026*
Kuala Lumpur University of Science and Technology (KLUST), Malaysia *CGPA: 3.946*

- Key Modules: Software Architecture, Mobile Programming, Web Systems & Technologies, Data Structures & Algorithms, Artificial Intelligence, Database Concepts, Information System Security, Human-Computer Interaction, Requirements Engineering, Software Project Management, Software Testing, Network and Data Security

Associate of Science in Computer Science (High Honors) *2021 - 2023*
University of the People, USA *CGPA: 3.86*

- Key Modules: Programming Fundamentals, Programming I & II, College Algebra, Introduction to Statistics, Databases I, Computer Systems, Software Engineering, Web Programming, Operating Systems

Cambridge General Certificate of Education Advanced Level (A-Level) *2018 - 2020*
Al Majd International School Dammam, Saudi Arabia

- Key Modules: Mathematics, Physics, Information Technology
- Held the position of School Prefect

SKILLS

Programming Languages:	Java, Python, C, C++, JavaScript (ES6), TypeScript, HTML, CSS, SQL, Julia
Frameworks & Libraries:	React Native, Node.js, Flask, TensorFlow, Keras, REST APIs, UML, OOP
Tools & Platforms:	Firebase, Firestore (NoSQL), Cloudinary, WordPress, GitHub, Figma, Visual Paradigm, Adobe Illustrator, Canva, Cursor AI, v0 by Vercel
OS & Environments:	Kali Linux, Ubuntu, CentOS, Windows, Metasploitable, Virtual Lab
Soft Skills:	Teamwork, Time Management, Problem Solving, Organization Management, Adaptive Communication, Leadership

EXPERIENCE

UX/UI Designer & Front-End Developer (Internship) *March 2025 - July 2025*
Awesomeree Sdn Bhd, Malaysia

- Designed and developed responsive web applications using WordPress, improving UI consistency and user experience across company platforms
- Leveraged AI tools (Claude, ChatGPT, v0 by Vercel, Cursor AI) to accelerate development; contributed to front-end implementation and full-stack workflows
- Managed front-end task ownership, briefed new team members, and submitted structured daily progress reports to supervisor

Early Childhood Educator *2022 - 2023*
Rising Stars Pre-School and Learning Center, Saudi Arabia

- Delivered interactive lesson plans for children aged 3 7, increasing classroom engagement by over 40%
- Supported students with special needs and non-native English speakers through adaptive communication and differentiated teaching strategies

Volunteer - Certificate Creator *2020*
Sri Lankan International School Dammam Sports Day Event, Saudi Arabia

- Handpicked for exceptional penmanship to design and produce 100+ sports day certifcates across Grades 1-6, ensuring professional and timely documentation

PROJECTS

SaveRasa - AI-Powered Food Waste Reduction System
July 2025 - March 2026

Final Year Project | React Native (TypeScript), Python, TensorFlow/Keras, Flask, Firebase, Node.js, Cloudinary, iPay88

- Designed and developed an end-to-end AI-driven mobile platform for surplus food management and dynamic pricing
- Built mobile frontend using React Native (TypeScript) with Expo; integrated analytics visualization via Gifted Charts library
- Implemented Firebase Authentication, Firestore (NoSQL) for real-time data, and Node.js for backend logic and integration handling
- Developed a dynamic pricing AI model using Python, TensorFlow/Keras; connected to app via Flask API; used Cloudinary for image storage and iPay88 sandbox for payment

AppleAvenue - Online iPhone Buy & Sell Mobile App
July 2025 - November 2025

Mobile Programming (CSC 3563) | React Native, Figma, JavaScript, Firebase

- Developed a fully functional mobile shopping app using React Native enabling users to browse, explore, and purchase iPhones at competitive prices
- Designed and prototyped UI/UX in Figma ensuring intuitive navigation and consistent aesthetics across 7 interconnected screens
- Implemented real-time search filtering, carousel image views, in-app bargaining chat, and profile management using React Hooks state management

Personal Portfolio Website
July 2025 - November 2025

Knowledge Management (MGMT 3501) | HTML, CSS, JavaScript, GitHub, Canva

- Built a fully responsive portfolio website with mobile-optimized views, hamburger navigation menu, and interactive artwork pop-up gallery
- Designed custom logo and visual identity in Canva; applied consistent Playfair Display typography and color schemes
- Iterated on design based on peer feedback; resolved responsiveness, image scaling, and menu alignment issues; shared on LinkedIn for employer visibility

WorkAhead - Job-Seeking Assistant App
July 2024 - November 2024

Human-Computer Interaction (CSC 2201) | Visual Paradigm, Figma

- Designed 20 wireframes in Visual Paradigm mapping complete user ows and navigation architecture for a job-seeking mobile application
- Conducted usability testing and iterated on design based on structured feedback to improve task completion and navigation clarity

EXTRACURRICULAR & ACTIVITIES

- **IUKL Cyber Alliance (2024 2026)** - Active member supporting cybersecurity awareness and tech initiatives at KLUST
- **Peer Buddies (2024 2026)** - Supported student integration and peer mentoring programs at KLUST
- **KLUST PEMADAM Club (2024 2026)** - Active member contributing to community and campus welfare activities
- **MARVEX & ENGINEER 2025 -** Competitively selected by KLUST to represent the university at the ASEAN Engineering & AI Convention (IEM, September 2025)
- **MCTF 2024 Career Fair -** Attended Malaysia's national training and career fair in partnership with JobStreet to engage with top employers
- **Aquaponics & Sustainable Living Workshop -** Organized and facilitated a workshop on aquaponic systems for 20+ KLUST students

CERTIFICATIONS

- **Julia Academy** - Introduction to Julia & Computational Modeling in Julia with Applications to the COVID-19 Pandemic
- **CISCO Networking Academy** - CCNAv7: Introduction to Networks
- **IUKL Cyber Club** - Certificate of Appreciation, Cybersecurity Professional Talk by Cybersecurity Malaysia
- **IUKL Industrial Professional Talk Series 2.0** - Participation Certificate in AI and Cybersecurity sessions
